TO: Institutions Participating in the Child and Adult Food Care Program (CACFP)

FROM: Arnette Cowan, MS, RD, LDN 
Supervisor, Special Nutrition Programs

SUBJECT: Corrective Action Plan Requirement

The purpose of this memorandum is to provide written guidance and information on the Corrective Action Plan (CAP) requirement. The State Agency is required to conduct program reviews on Institutions to determine Federal and State regulatory compliance. The CAP is a required component of the program review process. 7 Code of Federal Regulations §226.6 requires the State Agency to conduct program reviews on institutions with 1 to 100 facilities at least once every three years and institutions with more than 100 facilities at least once every two years.

Institutions are required to submit a CAP and supporting documentation describing procedures that will be taken to correct program violations. Institutions are required to submit a CAP by the required due date. Failure to submit the required CAP and supporting documentation by the required due date may result in your institution being declared Seriously Deficient which may lead to termination and/or disqualification from the Child and Adult Care Food Program.

The CAP must be detailed and specific and must include the following information:

- **What** are the program violations/serious deficiency(ies) and the procedures that will be implemented to address the serious deficiency(ies)?
- **Who** will address the program violations/serious deficiency? List personnel responsible for this task.
- **When** will the procedure for addressing the program violation/serious deficiency be implemented? Provide a timeline for implementing the procedure (i.e., will the procedure be done daily, weekly, monthly, or annually, and when will it begin?)
- **Where** will the CAP documentation be retained?
