Trend Data for the WIC Agreement Addenda SFY2009-2010

The overall purpose of trend data is to track patterns or changes in data over time. For purposes of the WIC Agreement Addenda, trend data is being used to track the performance of the State and Local WIC Programs with respect to five Deliverables or Program Indicators. The goal for both the State and Local WIC Programs is to implement or enhance activities which improve performance over time for each indicator.

For each of the WIC Program Scope of Work Deliverables #1-5, there is a report showing data for each County or District Health Department and the State as a whole. A report for each deliverable for District Health Departments broken out by county is also included at the end of each indicator.

Each report includes the following information.

- ❖ *The WIC Program Quality Assurance Deliverable being assessed.*
- ❖ *A description of the data used in the numerator and the denominator for the deliverable*
- ❖ *Nine-year trend data divided into 3-year time periods.* Each time period contains three years' worth of data unless noted otherwise. The most recent year's data are included in the most recent three year period.
- ❖ *The percent change from the first three year period to the most recent three-year time period.* The percent change along with the direction of the change (i.e., increase, decrease or no change) provides information useful for planning and evaluation purposes.
- ❖ *Data for the most current year.* The current year data are most useful to compare current status with trend data. To evaluate your programs specific indicator use current year percentage compared with the previous nine-year trend percentages. Additionally, the numerator and denominator counts of the current year data will allow you to determine how valid or stable the percentage rates are in your county or district. (Usually percentages calculated based on numbers less than 20 are not considered valid.)
- ❖ *State Data.* At the bottom of each page is data for the state as a whole. This information is useful to compare an agency's performance with respect to the state as a whole.

Guidance for Completing the WIC Agreement Addendum & Local Agency Nutrition Education Plan

The consolidated planning process allows all budgets and agreement addenda for public health programs receiving funding from the State to be submitted at one time (i.e., in a consolidated manner). The WIC agreement addendum serves a double purpose in that it also addresses the development of a Local Agency Nutrition Education Plan, which is a federal requirement.

Completing the WIC Agreement Addendum

Section III: Scope of Work and Deliverables

- Deliverables #1 - 5 - These five deliverables do not require staff to complete or to write anything. Instead, local WIC agencies are agreeing that they will improve the percentage for each of the listed indicators. To assess performance levels and to determine actions for improving performance, staff should refer to the “Trend Data” included annually with the WIC Budgetary Guidance and Agreement Addendum.

Note: The table below provides information related to Deliverable #4. Increase the percent of women with live term singleton births who receive WIC Program Services prenatally and who gain weight within the National Academy of Sciences - Institute of Medicine (IOM) Recommended Total Weight Gain Ranges During Pregnancy”. This information is also noted on the “Trend Data Reports” associated with the WIC Agreement Addendum.

<i>Woman’s Prepregnancy Weight Category</i>	<i>Recommended Range of Total Weight Gain in Pregnancy</i>
<i>Underweight (BMI <19.8)</i>	<i>28 to 40 pounds</i>
<i>Normal (BMI 19.8 to 26.0)</i>	<i>25 to 35 pounds</i>
<i>Overweight/Obese (BMI >26.0)</i>	<i>15 to 25 pounds</i>

- Deliverable #6 - Does not require staff to write anything, however, the agency agrees to comply with this requirement throughout the year.
- Deliverables #7 and 8 - These two deliverables relate to the Local Agency Nutrition Education Plan.
 - Deliverable #7 requires staff to attach to the WIC Agreement Addendum, a Nutrition Education Plan for the upcoming year for at least one of the focus areas listed, as defined in the Agreement Addendum.
 - Deliverable #8 requires staff to attach to the WIC Agreement Addendum, a brief evaluation of the preceding year’s plan as defined in the Agreement Addendum.

Section IV: Performance Measures/Reporting Requirements

Local agencies are agreeing that they will maintain an average monthly participation of at least 97% of their assigned monthly base caseload. The minimum average monthly participation for the SFY can be determined by multiplying the assigned base caseload by 97%.

Assuring the WIC Agreement Addendum and Budget are Complete

Prior to submission, local staff may wish to use the checklist below to ensure that their WIC agreement addendum and budget are complete.

Agreement Addendum

- The Health Director has signed and dated the first page.
- Contact information for the Local Health Department is placed on the first page.
- The evaluation of the prior Agreement Addendum's Nutrition Education Plan (Deliverable #8) has been included as an attachment to the Agreement Addendum.
- The Nutrition Education Plan for the upcoming year (Deliverable #7) has been included as an attachment to the Agreement Addendum.

Budget

- Figures are added correctly and rounded to the nearest whole dollar (no pennies!).
- At least 20% of the total WIC allocation is budgeted in Nutrition Education (404).
Note: The minimum amount for Nutrition Education is listed on your budget page.
- No more than 10% of the total WIC allocation is budgeted in General Administration (405).
- The amount budgeted for Breastfeeding (409) equals or exceeds the minimum amount for Breastfeeding listed on your budget page.
- Total budget does not exceed assigned WIC allocation.
- Submitted budget is the original document (not a photocopy).

Resources for Nutrition Education Activities

The following list of resources offer ideas that staff may consider as they develop their nutrition education plans. This list is by no means all inclusive.

Websites

- <http://www.nal.usda.gov/wicworks/> (overall good website for ideas and resources for nutrition & breastfeeding education activities in the WIC Program)
- www.cdc.gov/nccdphp/dnpa/physical/index.htm (ideas for physical activity)
- www.5aday.com & www.NC5aday.com (ideas for 5 a day)
- www.cspinet.org/nutrition/schoolkit.html (ideas for 1% or less)
- <http://www.cspinet.org/nutrition/1less.htm> (ideas for 1% or less)
- <http://www.womenshealth.gov/pub/bf.cfm> (ideas for breastfeeding and community partnerships)
- <http://www.ncpanbranch.com/resources.html> (ideas for 5 a day and physical activity)
- www.nutritionnc.com (ideas for a variety of activities)
- www.NCHealthyWeight.com (ideas for moving our children towards a healthy weight)

Resource Kits (which should be available in each Local WIC Program)

- Color Me Healthy (refer also to www.ColorMeHealthy.com)
- Families Eating Smart and Moving More (refer also to www.EatSmartMoveMoreNC.com)

Nutrition Education and Training (NET) Library Refer to www.nutritionnc.com for information on how to borrow materials from the NET Library.

FY10 Agreement Addenda: Section III - WIC Deliverable #1-Coordinate with Medicaid

A. Percentage of Medicaid enrolled pregnant women who received WIC Program Services*

Numerator equals the number of Medicaid enrolled women who received WIC program services prenatally & who gave birth during the time period indicated (began excluding emergency Medicaid deliveries with CY01 data)

Denominator equals the number of women who participated in Medicaid during pregnancy (excludes women who enrolled in Medicaid at the time of delivery) & who gave birth during the time period indicated (began excluding emergency Medicaid deliveries with CY97 data)

*Note: Due to changes in definition of numerator and denominator (emergency Medicaid delivery exclusions), trend data is not highly comparable

FY10 Agreement Addenda Section III: WIC Deliverable #2 - Provide Access to Program Services for Women

B. Percentage of pregnant women who participated in WIC during pregnancy and were recertified for WIC by 6 weeks postpartum

Numerator equals the number of women enrolled in WIC during pregnancy and who recertified for WIC within 42 days or 6 weeks after delivery (postpartum)

Denominator equals the number of pregnant women enrolled in local WIC program with an estimated date of confinement (EDC) during the time period indicated

NOTE: FY99-01 data can not be directly compared to the rest of the time period as the process for data collection changed due to the use of CPT codes for billing purposes and because the definition of a child being served in the child health clinic was modified. During FY99-01 the data also included Child Service Coordination services from the health department, but were excluded in the later years. For these reasons, it is recommended to compare the FY05-07 percentage with the FY02-04 and FY07 percentages only. *If there are no data present, no children were seen in the child health clinic at the local health department for this age group.

-----------------------	--------------	--------------	--------------	--------------	---------------	---------------	--------------

NOTE: FY99-01 data can not be directly compared to the rest of the time period as the process for data collection changed due to the use of CPT codes for billing purposes and because the definition of a child being served in the child health clinic was modified. During FY99-01 the data also included Child Service Coordination services from the health department, but were excluded in the later years. For these reasons, it is recommended to compare the FY05-07 percentage with the FY02-04 and FY07 percentages only. *If there are no data present, no children were seen in the child health clinic at the local health department for this age group.

FY10 Agreement Addenda Section III: WIC Deliverable #3 - Provide Access to Program Services for Children

A. Percentage of children less than 12 months of age who were served in the Child Health Clinic and received WIC Program Services*

Numerator equals the unduplicated count of children less than 1 year of age receiving both CH and WIC services.

Denominator equals the unduplicated count of all children less than 1 year of age receiving CH services.

* Recommended total prenatal weight gain range by prepregnancy weight category is 28-40 lbs. for underweight women (BMI<19.1); 25-35 lbs. for normal weight women (BMI 19.8 to 26.0); and 15-25 lbs. for overweight/obese women (BMI >26.0). Refer to Appendices B1 and B2 for data on women who gained excessive weight or inadequate weight based on the IOM Recommended Weight Gain Ranges.

FY10 Agreement Addenda Section III: WIC Deliverable #4 - Promote Healthy Weights

B. Percentage of women with live term singleton births who received WIC Program Services during pregnancy and who gained weight within the National Academy of Sciences-Institute of Medicine (IOM) Recommended Total Weight Gain Ranges*

Numerator equals the unduplicated count of women on WIC during pregnancy with live term singleton births and who gained weight within the IOM Recommended Weight gain during pregnancy

Denominator equals the unduplicated count of women with live term singleton births and who received WIC Program Services during the time period indicated
