NOTE: FY00-02 data can not be directly compared to the rest of the time period as the process for data collection changed due to the use of CPT codes for billing purposes and because the definition of a child being served in the child health clinic was modified. During FY00-02 the data also included Child Service Coordination services from the health department, but were excluded in the later years. For these reasons, it is recommended to compare the FY06-08 percentage with the FY03-05 and FY08 percentages only. \*If there are no data present, no children were seen in the child health clinic at the local health department for this age group.
