<sup>\*</sup>If there are no data present, there were either no children seen in the child health clinic at the local health department or none of the children who were seen fell into this BMI-for-age range. Data prior to 2000 are based on child's county of residence rather than the service site.

# 4A. c. Percentage of children two to four years of age who received services from the health department and who, according to their Body Mass Index (BMI) for age and gender were obese (BMI at or above the 95th Percentile)

Numerator (Num) equals the number of children two to four years of age receiving services at local health department with BMI percentile less than 5th percentile (Source:NC Nutrition and Physical Activity Surveillance System).

<sup>\*</sup>If there are no data present, there were either no children seen in the child health clinic at the local health department or none of the children who were seen fell into this BMI-for-age range. Data prior to 2000 are based on child's county of residence rather than the service site.

## 4A. c. Percentage of children two to four years of age who received services from the health department and who, according to their Body Mass Index (BMI) for age and gender were Obese (BMI at or above the 95th percentile)

Numerator (Num) equals the number of children two to four years of age receiving services at local health department with BMI percentile less than 5th percentile (Source:NC Nutrition and Physical Activity Surveillance System).
